Elliott Livestock – Wild Rose Cattle Company

Simmental Bulls & Bred Heifers

Welcome to our 2024 annual production sale! We invite you to look through the sale offering and please reach out with any questions you may have.

As you go through this year's selection of bulls and heifers, you will see our continued effort to offer top end genetics. As always, our focus has been keeping functional, productive cows and bulls in our pastures year after year. As excited as we get about how genetics have helped grow our herd on paper, udder quality is a must and with our young "helpers" we don't joke around with the disposition in our herds. Keeping longevity and performance on our minds, we are also maintaining high quality carcass cattle who can perform at a feedlot. We don't want them to just look good, but taste good too!

This year's selection of bulls has been grown on a balanced, high fiber ration & except lot #1, have not been exposed to any cows. The heifers were just brought home at the beginning of the month after being pastured with the rest of our cow herd over summer.

We appreciate your interest in our bull and select bred heifer offering this year and would like to thank all our family, friends, and past customers for your support over the years. We look forward to meeting new customers and helping serve your herds in the future. Stop by the farm anytime leading up to sale day to take a look at our entire offering & please reach out to us with any questions that you have.

We look forward to seeing you November 19th at the farm!
